GRIDHAWK® CAPACITOR WARRANTY

5 Year Capacitor Limited Warranty:

Under the following conditions, CTM Magnetics will cover the capacitors of your GridHawk unit under a 5 year limited warranty. If the aforementioned conditions are met, and the capacitors in your unit fail, CTM Magnetics will either replace the failed capacitors or provide a new unit at no charge.

Warranty Conditions:

- The filter is appropriately sized and correctly installed for the application.
- The filter is operating under the appropriate design conditions, as listed under the performance specifications section on the product brochure.
- The thermal switches have been connected to the VFD controls, and the inductors have not failed.
- CTM does not warrant acts of God such as lightning strikes, flooding, or earthquakes.
- No evidence of physical abuse to the unit.
